

## **SINGLEMAG WATER METER**

**Single Jet Water Meter**

Type	Size	L	B	H	Connection	Weight
Single	22					
Jet	gpm	5"	3"	3.5"	3/4"	1.5lbs

***The Norgas SingleMag 3/4" water meter is a durable, highly accurate meter that comes equipped with a pulse output in a compact design.***

### Technical Characteristics

Max Flow	22 gpm
Nom Flow	11 gpm
Min Flow	.25 gpm
Register Capacity	99,999 gal
Max Pressure	232 psi
Max Temp.	105 Deg F

### Pulse Specs

Pulse Value	10 gal
Max Switch Voltage	24V DC
Max Current	10 mA

**FEATURES:** Magnetic drive, low torque register measuring in gallons. Register is also magnet resistant and dry to prevent from moisture intrusion. Finger strainer installed to protect the meter from any incoming debris. Rugged design for stable accuracy in aggressive environments.

**Pulse Output:** Pulse output (contact closure) to interface with almost any wireless transmitter or remote metering device.

**Measuring Chamber:** .25 gpm low flow. Wide effective flow range. Dry free rotating register in durable enclosure.

*\*The SingleMag is intended for upright, horizontal installation only.\**

**“The SingleMag Water Meter is an accurate, reliable, cost effective solution for residential utility billing”**
